Bike/Pedestrian Ramp Access Closure Details

Update: September 23, 2013

Do YOU enter or exit the American River Parkway at Watt Avenue and American River Drive?

Levee Improvement Project Extends Ramp Closure Times Near Watt Avenue Bridge

Because of project delays, full day closures will continue at the access ramps to the American River Parkway on the north bank of the Watt Avenue Bridge until October 30. The bike trail will remain open.

Ramp closures will also affect access for those wishing to cross the Watt Bridge from the south side - to get to the north bank of the Parkway, using the pedestrian/bicycle bridge lanes.

Detour access points to or from Watt Avenue are located:

Kadema Drive access, see below Watt Detour Map #1

Estates Drive access, see below Watt Detour Map #2

****These are access ramp closures ONLY: The Jedediah Smith Memorial Trail will remain OPEN and unaffected to through traffic under the bridge****
